Client Testimonials

What our customers say about ITGS Human Resources...

"We worked in an efficient way as a team with ITGS to build a new international organization for Bintec. I appreciated the level of responsiveness ITGS provided us with through their services. I am looking forward to working with ITGS again".

(April 27, 2004)

François KREBS – CEO, BINTEC

"Alain Rochard, Director for ITGS Human Resources in France, has been instrumental in the success of the EAI consultancy company I started up in 2001 by helping hiring key staff. IT & Human understanding knowledge...he's got it all!!"

(April 20, 2004)

Florent LEFEVRE – CEO, SONIC SOFTWARE

"I worked with ITGS to hire software engineering pre-sales and consultants. What I appreciated most was that ITGS was truly working in our best interest, providing effective candidate screening, very complete reports, and highly professional opinions, even if it meant not recommending a candidate. In fact, we hired candidates against the advice of ITGS on two occasions, and the result proved to be non-optimal for us. All other hires through ITGS were very successful".

(April 1, 2004)

Jean-Pierre SCHOCH – Consulting Manager, IBM SOFTWARE

"ITGS perfectly understands human resources needs of high-tech companies, simply because they are one of those very few recruiting agencies interested in market trends, technology changes, and competitive landscape... I have been working with Alain Rochard, Director of ITGS Human Resources in France, for 6 years, and have hired over 50 employees through his services, I have always been very satisfied with our collaboration!"
